

Access to RAMS-SPOT:

Principal Investigators will be able to access their proposals and other records in RAMS-SPOT simply by using EID and password log in credentials.

Access to the system for other roles (dean, department chair, department administrator) will be enabled and managed by your access manager. The Committee on the Administration of Research (CAR) administrator appointed for your school, college or Massey Cancer Center (MCC) will serve as the RAMS-SPOT database “**access manager**” for your area. If you are a dean, department chair or administrator with questions about your system access, please contact your CAR administrator directly.

Current CAR membership is available at this url:
