Summary of Benefits and Coverage: What this Plan Covers & What it Costs

Coverage Period: 01/01/2015 - 12/31/2015

Coverage For: Individual/Family | Plan Type: PPO

**This is only a summary.** If you want more detail about your coverage and costs, you can get the complete terms in the policy or plan document at [www.anthem.com](http://www.anthem.com) or by calling 1-855-333-5735.

Important Questions	Answers	Why this Matters:
<b>What is the overall deductible?</b>	<p><b>\$500</b> single / <b>\$1000</b> family for In-Network Provider</p> <p><b>\$750</b> single / <b>\$1500</b> family for Non-Network Provider</p> <p>Does not apply to Prescription Drugs, In-Network Preventive Care, Copayments and Routine Eye Exam.</p> <p>In-Network Provider and Non-Network Provider deductibles are separate and do not count towards each other.</p>	<p>You must pay all the costs up to the <b>deductible</b> amount before this health insurance plan begins to pay for covered services you use. Check your policy to see when the <b>deductible</b> starts over (usually, but not always, January 1st.) See the chart starting on page 3 for how much you pay for covered services after you meet the <b>deductible</b>.</p>
<b>Are there other deductibles for specific services?</b>	No.	<p>You don't have to meet deductibles for specific services, but see the chart starting on page 3 for other costs for services this plan covers.</p>
<b>Is there an out-of-pocket limit on my expenses?</b>	<p>Yes; In-Network Provider</p> <p>Single: <b>\$4000</b>, Family: <b>\$8000</b></p> <p>Non-Network Provider Single: <b>\$5500</b>, Family: <b>\$11000</b></p>	<p>The <b>out-of-pocket limit</b> is the most you could pay during a policy period for your share of the cost of covered services. This limit helps you plan for health care expenses.</p>
<b>What is not included in the out-of-pocket limit?</b>	<p>Balance-Billed Charges, Pre-Authorization Penalties, Health Care This Plan Doesn't Cover, Premiums, Out-of-Pocket Limit does not include Adult Routine Vision Care.</p>	<p>Even though you pay these expenses, they don't count toward the <b>out-of-pocket limit</b>.</p>

Important Questions	Answers	Why this Matters:
<b>Is there an overall annual limit on what the insurer pays?</b>	No. This policy has no overall annual limit on the amount it will pay each year.	The chart starting on page 3 describes any limits on what the insurer will pay for specific covered services, such as office visits.
<b>Does this plan use a <u>network</u> of providers?</b>	Yes. See <b>www.anthem.com</b> or call <b>1-855-333-5735</b> for a list of participating providers.	If you use an in-network doctor or other health care provider, this plan will pay some or all of the costs of covered services. Plans use the terms in-network, preferred, or participating to refer to providers in their network.
<b>Do I need a referral to see a <u>specialist</u>?</b>	No, you do not need a referral to see a specialist.	You can see the specialist you choose without permission from this plan.
<b>Are there services this plan doesn't cover?</b>	Yes.	Some of the services this plan doesn't cover are listed on page 8. See your policy or plan document for additional information about excluded services.

- **Co-payments** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Co-insurance** is your share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is \$1,000, your **co-insurance** payment of 20% would be \$200. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. If an out-of-network **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the **allowed amount** is \$1,000, you may have to pay the \$500 difference. (This is called **balance billing**.)
- This plan may encourage you to use **In-Network** by charging you lower **deductibles**, **co-payments** and **co-insurance** amounts.

## Does this Coverage Provide Minimum Essential Coverage?

The Affordable Care Act requires most people to have health care coverage that qualifies as minimum essential coverage. This plan or policy does provide minimum essential coverage.

## Does this Coverage Meet the Minimum Value Standard?

The Affordable Care Act establishes a minimum value standard of benefits of a health plan. The minimum value standard is 60% (actuarial value). This health coverage does meet the minimum value standard for the benefits it provides.

## About These Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

**This is  
not a cost  
estimator.**

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

### Having a baby (normal delivery)

- Amount owed to providers: \$7,540
- Plan pays: \$5,520

## Questions and answers about the Coverage Examples:

### What are some of the assumptions behind the Coverage Examples?

- Costs don't include premiums.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network providers. If the patient had received care from out-of-network providers, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how deductibles, co-payments, and co-insurance can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

### Does the Coverage Example predict my own care needs?

 **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

### Does the Coverage Example predict my future expenses?

 **No.** Coverage Examples are not cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your providers charge, and the reimbursement your health plan allows.

### Can I use Coverage Examples to compare plans?

 **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

### Are there other costs I should consider when comparing plans?

 **Yes.** An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as co-payments, deductibles, and co-insurance. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
