Health Maintenance Organization (HMO) Plan VA04TE0*ZO00

The Optimum Choice, Inc. HMO plan provides you with medical coverage through a network of participating physicians and other health care practitioners. To access specialty services, you will need a referral from your Primary Care Physician (PCP). PCPs usually specialize in family or general practice, internal medicine, obstetrics/gynecology (OB/GYN) or pediatrics. Each of your family members may choose a different PCP, and you can change your PCP as often as monthly.

Most of your medical care must be arranged and coordinated by your PCP. Your PCP will provide:

- Office visits when you are ill
- Preventive health care
- Immunizations for children and adults
- Health care education

Your PCP is also responsible for:

- Writing referrals for specialty care
- Arranging for hospitalizations
- Approving urgent care
- Arranging for behavioral health and substance abuse care
- Arranging for laboratory and X-ray services
- Arranging for outpatient services and surgery

There are usually no claim forms to fill out when you receive services from participating providers in our network. In some cases, you may incur out-of-pocket expenses for a Covered Service, such as in a medical emergency. If this happens, contact our Member Services Department for further assistance.

Some of the Important Benefits of the HMO Plan:

- You have access to a network of participating providers, including hospitals and specialists. Look on our Web site, www.mamsiUnitedHealthcare.com, to see our network of participating providers.
- Benefits include coverage for office visits and hospital care, including inpatient and outpatient surgery.
- Preventive services are covered including:
 - Childhood immunizations
 - Well-woman services (e.g., pap smears, mammograms)
- Prenatal care
- Routine check-ups
- Vision and hearing screening
